

Goal-a-game McCormack

WORTHING'S twin striking force — John McCormack and Mick Streeter have 15 goals between them this season. The speedy McCormack currently is the man in form with seven goals in as many games. Here's a run down of the Worthing squad.

DEFENCE

IAN TAYLOR. Goalkeeper. Joined the club this season after moving to Worthing for business reasons. Previously reserve 'keeper for Enfield.

KEVIN KEEHAN. Sure-footed defender who can play on either flank. Aged 18, former Sussex Youth player and last week made his debut for the senior Sussex side, scoring a goal and putting through his own goal! He was picked for England's youth squad last season.

HARRY RICHARDSON. A robust defender who re-joined Worthing this season from Sussex County League club Arundel. Aged 23 he has had a poor disciplinary record.

MARTIN LAKER. 18-year-old Chichester High School pupil. A former Sussex youth player, he joined the club last season and is a strong defender.

BRIAN AMYES. Small but courageous defender bordering on the "veteran" stage. Joined Worthing from Harrow Borough in 1970-71. Made 45 out of a possible 46 appearances last season and an ever present so far this term.

JOHN WOOD. Club captain and excellent sweeper. Aged 33. Formerly with Amyes at Harrow Borough and joined Worthing in December 1971. Vastly experienced and has played for seven London clubs. He made 37 appearances last season.

MIDFIELD

CHRIS KILBY. Schoolmaster; a talented midfield player, has previously played as a winger. An attacking player, joined Worthing from Carshalton Athletic last season when he made 29 appearances. Takes all the corners and free kicks.

CHRIS GEE. Newly-signed from Tooting and Mitcham. Aged 25. A regular since making his debut when Worthing beat Pagham, and has never been on the losing side in a Worthing shirt.

JOHN ORAM. Local boy who has improved during the last few seasons. Full of ability but until this season lacked the willingness to engage in physical contact. Aged 22, played 35 times last season and equally successful as a front runner.

PETER BARTLE. Aged 30. With Worthing since a schoolboy but not played in the last two games. Full of talent but weak in the air.

ATTACK

MICK STREETER. Aged 30 and with Bartle the longest serving member of the club. His brother Ted is a former Worthing manager. Streeter, 6ft. 2in. tall and 13 stone, scored a record 45 goals in Worthing's first season in the Premier Division of the Athenian League. Has scored nearly 200 goals for the club. He is now Worthing's assistant manager; very strong in the air.

JOHN MCCORMACK. Aged 25. Formerly a champion sprinter with Worthing Harriers. Joined Worthing midway through last season from Eastbourne United. Had previously spent three years with Sheffield United as an amateur and two years with Halifax. A hamstring injury put him out of action for the last six weeks of last season. A lecturer at Sussex University.

PADDY LONG. Aged 31; won two England amateur caps. Joined Worthing from Epsom and Ewell after being with Maidstone and Hayes. Excellent ball control but overweight and lacking stamina.

JIM VAUGHAN. Aged 17, a student at Sussex University. Had six months as an amateur with Nottingham Forest. Shows great potential.

Crisis

PRINCES Risborough F.C. are facing a player crisis. Last week's Hellenic League Reserve Division Two game between Easington Sports Res. and Risborough Res. had to be postponed because the latter could not field a team. If the situation does not improve, the reserve team could well fold up. Any players interested in joining the club should attend training sessions on Tuesday or Thursday or contact reserve team manager Clifford James at High Wycombe 30278.
